Subject index

Abrasive stripping
A comparison of simulated and experimental abrasive stripping voltammetric curves of ionic crystals: reversible case (Jaworski et al.) 1
Acetonitrile
Conductance of lithium hexafluoroarsenate in acetonitrile + propylene carbonate solutions and some thermodynamic properties of pure acetonitrile + propylene carbonate mixtures (Bałkowska et al.) 11
Aromatic amines
Mechanistic study of the electrochemical oxidation of some aromatic amines in the presence of bases (Andrieux et al.) 231

Barrierless discharge
Barrierless discharge in the concentrated HCl solutions at high temperatures (Kriksunov, Krishtalik) 99
Bifunctional reagent
Application of stilbene-(4,4′-diisothiocyanate)-2,2′-disulfonic acid as a bifunctional reagent for the organization of organic materials and proteins onto electrode surfaces (Katz et al.) 129
Bismuth
Cyclic voltammetry studies of electrodeposited thin films of bismuth in 1 M KOH (Ismail et al.) 51
β-radiation
In situ study of the formation of thin layers on electrodes by means of β-radiation backscattering (A new version of the "thin foil" radiotracer method) (Horányi) 319
Bromohydrins
Proton-transfer reactions in the cathodic reduction of bromohydrins in neutral aprotic media (Bhuvaneswari et al.) 223

Carbon Monoxide
The electro-oxidation of carbon monoxide on noble metal catalysts as revisited by real-time surface-enhanced Raman spectroscopy (Zhang, Weaver) 173
Casteel–Amis equation
Concentrated electrolyte solutions in organic solvents. Their specific conductance and analysis of Casteel–Amis equation (Werblan, Bałkowska) 25
Catalysis
Study of a 1:12 phosphomolybdic anion doped polypyrrole film electrode and its catalysis (Dong, Jin) 87
Chemisorption
Studies of Ru(001) electrodes in aqueous electrolytes containing silver ions and methane: LEED, HREELS, Auger spectroscopy and electrochemistry (Cao et al.) 71
Cobalt
Inhibitory and oscillatory phenomena caused by iodides during the electrodissolution of cobalt in sulphuric acid solutions: Comparison with the effect of other halides (Sazou, Pagitsas) 105
Cobalt(III) complexes
Dynamic solvent effect on the kinetics of the inner-sphere reduction of cobalt(III) anchored to a mercury electrode in mixtures of water with an organic solvent (Jaworski, Kebede) 209
Conductance
Conductance of lithium hexafluoroarsenate in acetonitrile + propylene carbonate solutions and some thermodynamic properties of pure acetonitrile + propylene carbonate mixtures (Bałkowska et al.) 11
Conducting polymers
Doping–dedoping of polypyrrole: a study us-

ing current-measuring and resistance-measuring techniques (John, Wallace) 145
Conjugation
The electrochemistry of a stable Zn isoporphyrin (Fawcett et al.) 281
Coumarin
On the stabilization of reconstructed Au(100) surfaces by coumarin (Skoluda et al.) 289
Cyclic voltammetry
Cyclic voltammetry studies of electrodeposited thin films of bismuth in 1 M KOH (Ismail et al.) 51
Scanning tunnelling microscopy monitoring of the surface morphology of the basal plane of highly oriented pyrolytic graphite during the cyclic voltammetry of isopoly and heteropolyanions (Keita, Nadjo) 295
Cytochrome *c*
Direct electrochemistry of horse heart cytochrome *c* at the γ-alumina-coated electrode (Ohtani, Ikeda) 311

Doping–dedoping
Doping–dedoping of polypyrrole: a study using current-measuring and resistance-measuring techniques (John, Wallace) 145
Durability
Improvement in durability of the planar CO sensor with a Nafion® laminate (Yasuda et al.) 39
Dynamic solvent effect
Dynamic solvent effect on the kinetics of the inner-sphere reduction of cobalt(III) anchored to a mercury electrode in mixtures of water with an organic solvent (Jaworski, Kebede) 209

Electroanalytical modeling
Electroanalytical simulations. Part 14. Simulation of Frumkin-type adsorption processes by orthogonal collocation under cyclic voltammetric conditions (Schulz, Speiser) 255
Electroanalytical simulation
Electroanalytical simulations. Part 14. Simulation of Frumkin-type adsorption processes by orthogonal collocation under cyclic voltammetric conditions (Schulz, Speiser) 255
Electrocatalysis
Electrocatalysis of transition-metal oxides for reduction and oxidation of nitrite ions (Sunohara et al.) 161
Electrochemical oxidation of platinum
Electrochemical behaviour of platinum surfaces containing (110) sites and the problem of the third oxidation peak (Gómez, Clavilier) 189
Electrochemical reactivity
Studies of Ru(001) electrodes in aqueous electrolytes containing silver ions and methane: LEED, HREELS, Auger spectroscopy and electrochemistry (Cao et al.) 71
Electrodeposited thin films
Cyclic voltammetry studies of electrodeposited thin films of bismuth in 1 M KOH (Ismail et al.) 51
Electrodissolution
The application of fast potential steps to noble metal electrodes: a correlation of electrodissolution with changes in the surface morphology and composition (Schumacher et al.) 59
Inhibitory and oscillatory phenomena caused by iodides during the electrodissolution of cobalt in sulphuric acid solutions: Comparison with the effect of other halides (Sazou, Pagitsas) 105
Electrolyte composition
Effect of the electrolyte composition on the electroreduction of palladium oxide films (Bolzán, Arvia) 243
Electron transfer
Dynamic solvent effect on the kinetics of the inner-sphere reduction of cobalt(III) anchored to a mercury electrode in mixtures of water with an organic solvent (Jaworski, Kebede) 209
Electron transfer mediator
Application of stilbene-(4,4′-diisothiocyanate)-2,2′-disulfonic acid as a bifunctional reagent for the organization of organic materials and proteins onto electrode surfaces (Katz et al.) 129
Electro-oxidation
The electro-oxidation of carbon monoxide on noble metal catalysts as revisited by real-time surface-enhanced Raman spectroscopy (Zhang, Weaver) 173
Electroreduction of palladium oxide
Effect of the electrolyte composition on the

electroreduction of palladium oxide films (Bolzán, Arvia) 243

Frumkin isotherm
Electroanalytical simulations. Part 14. Simulation of Frumkin-type adsorption processes by orthogonal collocation under cyclic voltammetric conditions (Schulz, Speiser) 255

Frumkin-type adsorption
Electroanalytical simulations. Part 14. Simulation of Frumkin-type adsorption processes by orthogonal collocation under cyclic voltammetric conditions (Schulz, Speiser) 255

HCl solutions
Barrierless discharge in the concentrated HCl solutions at high temperatures (Kriksunov, Krishtalik) 99

Highly oriented pyrolytic graphite
Scanning tunnelling microscopy monitoring of the surface morphology of the basal plane of highly oriented pyrolytic graphite during the cyclic voltammetry of isopoly and heteropolyanions (Keita, Nadjo) 295

Inhibitory phenomena
Inhibitory and oscillatory phenomena caused by iodides during the electrodissolution of cobalt in sulphuric acid solutions: Comparison with the effect of other halides (Sazou, Pagitsas) 105

Inner-sphere reduction
Dynamic solvent effect on the kinetics of the inner-sphere reduction of cobalt(III) anchored to a mercury electrode in mixtures of water with an organic solvent (Jaworski, Kebede) 209

Iodides
Inhibitory and oscillatory phenomena caused by iodides during the electrodissolution of cobalt in sulphuric acid solutions: Comparison with the effect of other halides (Sazou, Pagitsas) 105

Ionic crystals
A comparison of simulated and experimental abrasive stripping voltammetric curves of ionic crystals: reversible case (Jaworski et al.) 1

Ionic intercalation
A mirage effect analysis of the electrochemical processes in nickel hydroxide electrodes (Rosolen et al.) 273

Isoporphyrin
The electrochemistry of a stable Zn isoporphyrin (Fawcett et al.) 281

Langmuir adsorption
Electroanalytical simulations. Part 14. Simulation of Frumkin-type adsorption processes by orthogonal collocation under cyclic voltammetric conditions (Schulz, Speiser) 255

Lithium hexafluoroarsenate
Conductance of lithium hexafluoroarsenate in acetonitrile + propylene carbonate solutions and some thermodynamic properties of pure acetonitrile + propylene carbonate mixtures (Bałkowska et al.) 11

Methane oxidation
Studies of Ru(001) electrodes in aqueous electrolytes containing silver ions and methane: LEED, HREELS, Auger spectroscopy and electrochemistry (Cao et al.) 71

Mirage effect
A mirage effect analysis of the electrochemical processes in nickel hydroxide electrodes (Rosolen et al.) 273

Nafion® laminate
Improvement in durability of the planar CO sensor with a Nafion® laminate (Yasuda et al.) 39

Neutral aprotic media
Proton-transfer reactions in the cathodic reduction of bromohydrins in neutral aprotic media (Bhuvaneswari et al.) 223

Nickel hydroxide electrodes
A mirage effect analysis of the electrochemical processes in nickel hydroxide electrodes (Rosolen et al.) 273

Noble metal electrodes
The application of fast potential steps to noble metal electrodes: a correlation of electrodissolution with changes in the surface morphology and composition (Schumacher et al.) 59

Orthogonal collection
Electroanalytical simulations. Part 14. Simulation of Frumkin-type adsorption processes

by orthogonal collocation under cyclic voltammetric conditions (Schulz, Speiser) 255

Oscillatory phenomena
Inhibitory and oscillatory phenomena caused by iodides during the electrodissolution of cobalt in sulphuric acid solutions: Comparison with the effect of other halides (Sazou, Pagitsas) 105

Oxidation
Mechanistic study of the electrochemical oxidation of some aromatic amines in the presence of bases (Andrieux et al.) 231

Phen T
Anodic and cathodic electropolymerisation of novel lightly coloured poly(phenanthro[9-10c]thiophen) and its electrical characterisation (Kathirgamanathan, Shepherd) 305

Phosphomolybdic anion
Study of a 1:12 phosphomolybdic anion doped polypyrrole film electrode and its catalysis (Dong, Jin) 87

Planar CO sensor
Improvement in durability of the planar CO sensor with a Nafion® laminate (Yasuda et al.) 39

Platinum(110) sites
Electrochemical behaviour of platinum surfaces containing (110) sites and the problem of the third oxidation peak (Gómez, Clavilier) 189

Platinum third oxidation peak
Electrochemical behaviour of platinum surfaces containing (110) sites and the problem of the third oxidation peak (Gómez, Clavilier) 189

Poly(phenanthro[9-10c]thiophen)
Anodic and cathodic electropolymerisation of novel lightly coloured poly(phenanthro[9-10c]thiophen) and its electrical characterisation (Kathirgamanathan, Shepherd) 305

Polypyrrole
Study of a 1:12 phosphomolybdic anion doped polypyrrole film electrode and its catalysis (Dong, Jin) 87
Doping–dedoping of polypyrrole: a study using current-measuring and resistance-measuring techniques (John, Wallace) 145

Propylene carbonate
Conductance of lithium hexafluoroarsenate in acetonitrile + propylene carbonate solutions and some thermodynamic properties of pure acetonitrile + propylene carbonate mixtures (Bałkowska et al.) 11

Proton-transfer reactions
Proton-transfer reactions in the cathodic reduction of bromohydrins in neutral aprotic media (Bhuvaneswari et al.) 223

Raman Spectroscopy
The electro-oxidation of carbon monoxide on noble metal catalysts as revisited by real-time surface-enhanced Raman spectroscopy (Zhang, Weaver) 173

Redox switching
Doping–dedoping of polypyrrole: a study using current-measuring and resistance-measuring techniques (John, Wallace) 145

Resistometry
Doping–dedoping of polypyrrole: a study using current-measuring and resistance-measuring techniques (John, Wallace) 145

Ru(001) electrodes
Studies of Ru(001) electrodes in aqueous electrolytes containing silver ions and methane: LEED, HREELS, Auger spectroscopy and electrochemistry (Cao et al.) 71

Scanning electrochemical microscopy
Scanning electrochemical microscopy: probing the ingress and egress of protons from a polyaniline film (Frank, Denuault) 331

Scanning tunneling microscopy
Scanning tunnelling microscopy monitoring of the surface morphology of the basal plane of highly oriented pyrolytic graphite during the cyclic voltammetry of isopoly and heteropolyanions (Keita, Nadjo) 295

Specific conductance
Concentrated electrolyte solutions in organic solvents. Their specific conductance and analysis of Casteel–Amis equation (Werblan, Bałkowska) 25

Stilbene-(4,4′-diisothiocyanate)-2,2′-disulfonic acid
Application of stilbene-(4,4′-diisothiocyanate)-2,2′-disulfonic acid as a bifunctional reagent for the organization of organic materials and proteins onto electrode surfaces (Katz et al.) 129

Sulphuric acid
Inhibitory and oscillatory phenomena caused by iodides during the electrodissolution of

cobalt in sulphuric acid solutions: Comparison with the effect of other halides (Sazou, Pagitsas) 105

Surface composition
The application of fast potential steps to noble metal electrodes: a correlation of electrodissolution with changes in the surface morphology and composition (Schumacher et al.) 59

Surface modification
Application of stilbene-(4,4′-diisothiocyanate)-2,2′-disulfonic acid as a bifunctional reagent for the organization of organic materials and proteins onto electrode surfaces (Katz et al.) 129

Surface morphology
The application of fast potential steps to noble metal electrodes: a correlation of electrodissolution with changes in the surface morphology and composition (Schumacher et al.) 59

Surface vibrational spectroscopy
Studies of Ru(001) electrodes in aqueous electrolytes containing silver ions and methane: LEED, HREELS, Auger spectroscopy and electrochemistry (Cao et al.) 71

Thermodynamic properties
Conductance of lithium hexafluoroarsenate in acetonitrile + propylene carbonate solutions and some thermodynamic properties of pure acetonitrile + propylene carbonate mixtures (Bałkowska et al.) 11

Thin foil radiotracer
In situ study of the formation of thin layers on electrodes by means of β-radiation backscattering (A new version of the "thin foil" radiotracer method) (Horányi) 319

Transition-metal oxides
Electrocatalysis of transition-metal oxides for reduction and oxidation of nitrite ions (Sunohara et al.) 161

Voltammetry
A comparison of simulated and experimental abrasive stripping voltammetric curves of ionic crystals: reversible case (Jaworski et al.) 1

Zinc
The electrochemistry of a stable Zn isoporphyrin (Fawcett et al.) 281
